

Robotics & Intralogistics service portfolio  
**Planning and Integration**

- Palletising ✓ **GENERAL CONTRACTOR**
- Depalletising ✓ **FABRIC PLANNING**
- Order picking ✓ **FEASIBILITY STUDIES**
- Piece picking / Bin picking ✓ **PROJECT MANAGEMENT**
- Automated Guided Vehicles ✓ **CE PROCESSES**
- Conveyor technology ✓ **SERVICE 24/7**
- Periphery standards
- Warehouse technology
- Material flow control (MFC)

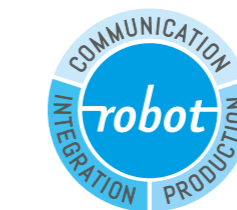

**Standardised building block system**  
 Modular concept for Packaging tasks  
 such as Transport, Case erecting,  
 Order picking, Labelling, Palletising  
 and Stretching

What robotics can be

# Robotics & Intralogistics

In Flow  
 The networked factory

Your production. Your processes. Your intralogistics.  
Tailor-made robotics and logistics solutions for your factory.

1

Warehouse technology

2

Picking

3

Palletising / Depalletising

5

Material flow controller

4

AGV/AMR
